A brief introduction to OeKB CSD's issuer platform – target audience: issuers' agents

- Summary
- Functions supported by the platform
- Advantages
- Timeline
- Platform architecture overview
- Core business processes
- Accessing the platform as a user

Summary

Objective:

Digitalization – Substitution/Simplification/Automation of the last remaining paper-based processes (Physical Global Certificates, PGC)

Realization:

via the OeKB CSD Issuer Platform

Means:

- Comprehensive use of the opportunities resulting from digital securities (Digital Global Certificates, DGCs)
- Implementation of dedicated functions (agents as function holders)

Functions supported by the platform The issuer platform supports 5 interactive functions to control securities' lifecycles

- **Issuer IS** the issuer of one or more securities => enabled to inspect securities' status
- **Transfer Agent** TA an accountholder with OeKB CSD that is empowered by one or more issuers to manage the lifecycle of one or more of their ISINs => enabled to issue securities in the issuer's name and manage them
- **Information Agent** IA a party empowered by one more issuers to notify OeKB CSD of upcoming (payment) events and on their respective attributes => enabled to add and update (payment) events
- Corporate Action Agent CA a party empowered by one more issuers to notify OeKB CSD of upcoming corporate actions and on their respective attributes => enabled to provide information on corporate actions
- Paying Agent PA a party empowered by one or more issuers to manage and perform payments in relation to their securities => enabled to flag, ... payments
-additional Information on the functions will be provided

Advantages

Direct bidirectional communication between issuer, agents and OeKB CSD, allowing for:

Additional automated and structured communication channels Simplified, streamlined processes in the lifecycle of a

- DGC, comprising
 - Deposit
 - Income collection
 - Provision of corporate action information
- PGC, comprising
 - Income collection
 - Provision of corporate action information

Timeline

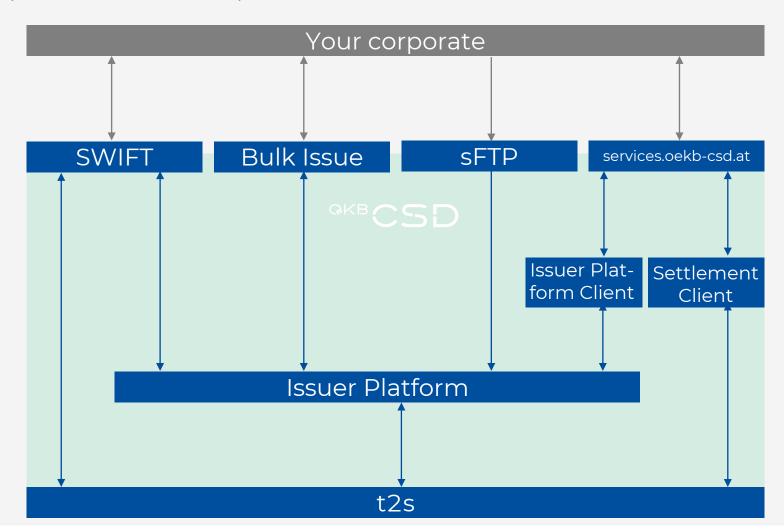

- January 2021: Start of Implementation Project
- March 2021: Stakeholder Onboarding
- Currently: Implementation and Solution Adoption
- June 2022: Begin of Market Testing
- September 2022: Planned Go-Live

Platform architecture overview - Multiple channels » one platform

There are four main channels to interface with the Issuer Platform

- For human actors: browser-based user interface as described on the previous slides
- For automation: technical interfaces for selected services:
 - SWIFT ISO 15022 and ISO 20022 for instructing quantity changes to existing securities
 - Bulk Issue interface (sFTP as well as webservice) to efficiently perform high cardinality bulk-issues
 - sFTP to provide and update terms and conditions
- All automated interface functionality (with the exception of the bulk-issue and the change of terms & conditions) is also available via the user interface

Core business processes Multiple processes » one platform

Self-service core processes

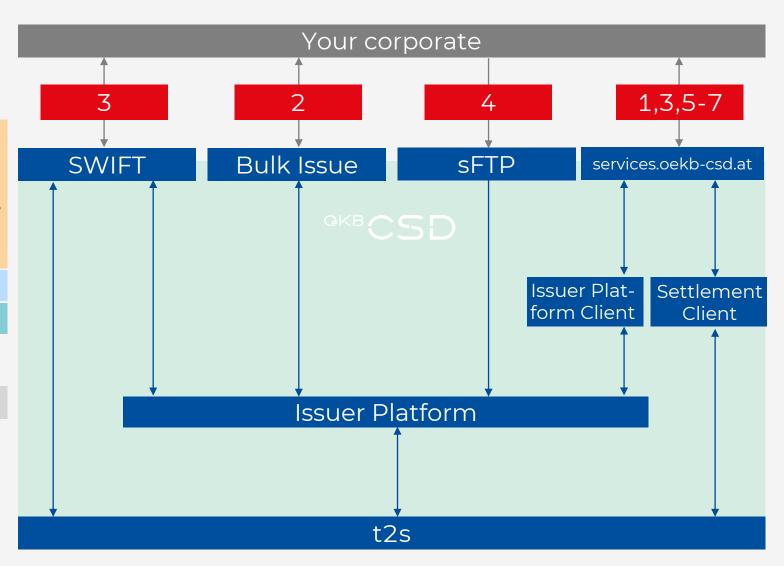

- Issue a digital security
- Bulk-issue digital securities
- Change quantity of an existing security
- Change fund terms & conditions
- Provide information to event / action
- 6. Manage payment

Self-service support processes

7. Maintain users and permissions

Supervised processes (outside Platform)

- Issue / deposit a physical security
- Withdraw a physical security

Accessing the platform as a user Access using a browser via OeKB CSD's central service portal (1/3)

- Central service portal: https://services.oekb-csd.at/csd-services/
 - Two-factor authentication required ("LOGIN WITH RSA/SMS TOKEN")
 - Issuer Services title (see on the right side): blue text on bottom of tile is a link to the Issuer Platform
 - Your corporate has to have been granted access to the Issuer Platform
 - If you see 📺 , you as a user of said corporate do have access
 - If you see 🔒 , your corporate admin has to grant access to you

The following permission is required:

Issuer Services

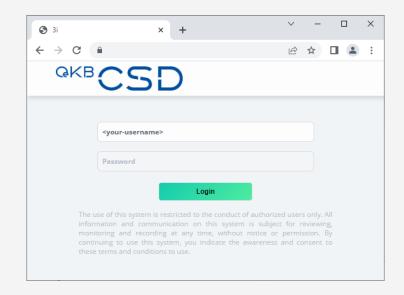

Issuing made easy. Our intuitive application enables you to create digital securities, to transmit all necessary information for custody services and to process payments due.

ISSUER SERVICES - TESTSYSTEM

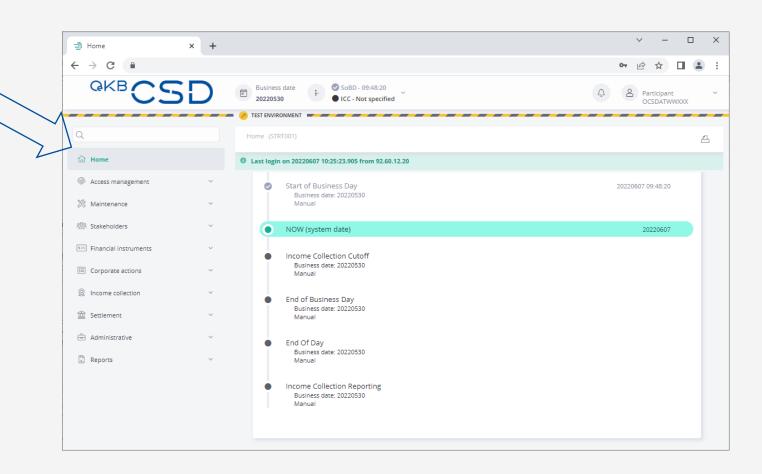

Accessing the platform as a user Access using a browser via OeKB CSD's central service portal (2/3)

- You can now log into the Issuer Platform system:
 - Your username is prepopulated
 - Your initial password will be provided by your corporate admin
 - For support, contact sonja.taghipour@oekb-csd.at
- you are in the test environment (connected to t2s SIMU)
- If there is no ribbon on top of the window, you are in the production environment (connected to t2s PROD)

Accessing the platform as a user Access using a browser via OeKB CSD's central service portal (3/3)

- You can now use the menu tree on the left side of the window to navigate the application
- Take care not to use your browser's back-button but to use the navigation buttons provided by the application. The behavior of the browser's back button in general is undefined
- Your menu tree will look differently depending on your role and the permissions granted to you
- Further documentation available soon

3. Wrap-Up Settlement Discipline

3. Wrap-Up Settlement Discipline

European working progress

- Enter into force with 1st February 2022
 - One exception: → ESMA proposal to suspend Buy-In Regime for three years
 - Successful Go-Live in Austria with very few short-term work arounds
- Issues:
 - Cross-industry task forces
 - Reference Data
 - Messaging Standards
 - Monthly Calendar

3. Wrap-Up Settlement Discipline

Austrian Key Figures – Penalty Mechanism

- Settlement Fails Penalties:
 - 16.000 Penalties per month
 - EUR 700.000 per month

Gerhard Frank Director Asset Servicing

SCoRE Rulebook / Standards

(1/2)

- The SCoRE Rulebook presents a single set of business processes/workflows, data elements and messaging for CA and meeting events identified as relevant to securities issued in (I)CSDs in Europe. The SCoRE CA Standards refer to the detailed description of business processes and workflows.
 - On 3rd January 2022 the ECB has published the updated SCoRE Corporate Actions Rulebook. The full document can be found here → https://www.ecb.europa.eu/paym/intro/publications/pdf/amiseco202112_corporateevents.en.pdf
 - 15 SCoRF CA Standards
 - Standard 1: Harmonised business processes and workflows for corporate actions
 - Standard 2: Provision of data necessary for calculating proceeds
 - Standard 3: Consistency of information provided by issuer (I)CSDs, investor (I)CSDs and custodians
 - Standard 4: Rounding rules
 - Standard 5: Negative cash flows
 - Standard 6: Business day rule

SCoRE Rulebook / Standards

(2/2)

- 15 SCoRE CA Standards (continued)
 - Standard 7: Securities amount data
 - Standard 8: Payment time
 - Standard 9: Notification of processing status
 - Standard 10: Flective events
 - Standard 11: Availability of default options
 - Standard 12: Handling of fees for meeting events
 - Standard 13: Reversal of a corporate action
 - Standard 14: Processing of foreign currency payments
 - Standard 15: ISO 20022 messages for corporate actions

(1/2)**Implementation**

- Implementation ECB
 - The SCoRE CA Standards should be implemented by all actors involved in the processing of CA and meeting events.
 - Implementation of Standards 1 to 14 is mandatory for all actors involved in the processing of CA and meeting events by November 2023 with the exception of those events deemed relevant to non-debt instruments only as part of Standards 2 and 3 and for which an ultimate implementation deadline of November 2025 applies.
 - For Standard 15 implementation of ISO 20022 messaging a two-wave approach has been agreed by AMI-SeCo:
 - In Wave 1 (I)CSDs, Eurosystem central banks and Eurosystem counterparties will implement ISO 20022 messaging by November 2023. Other actors involved in the processing of CA and meeting events will then adopt ISO 20022 messaging as part of Wave 2, which has an implementation deadline of November 2025.

Implementation

(2/2)

- Implementation in Austria
 - CANIG (Corporate Action National Implementation Group)
 - Ongoing discussions to have a common understanding
 - Still waiting for clarifications from ECB on raised questions concerning different standards
 - Austrian SMPG Working Group for switch from SWIFT ISO 15022 to ISO 20022 format

New Working Group under AT SMPG Umbrella

- The Austrian SMPG established a new working group to deal with the Migration of ISO 15022 to ISO 20022
- What is SMPG?
 - The Securities Market Practice Group (SMPG) is an initiative of capital market participants that prepares and publishes market practice rules on the basis of the SWIFT standards ISO 15022 and ISO 20022.
 - The global SMPG was set up by SWIFT in 1998. In November 2002, the Austrian SMPG (SMPG A) was established in cooperation with Austrian banks by OeKB's management at that time. Today, OeKB CSD has taken on this role.
 - To date, national SMPGs have been instituted in more than 40 member states in America, Europe, Asia and Australia.

Scope of the Working Group

Scope of the Working Group

- The aim of the working group is to develop a migration plan for the Austrian market taking into account the Austrian requirements for a harmonized migration to the new SWIFT standard ISO 20022.
- First Meeting took place
 - 20th June 2022
 - Next Meeting planned 7th November 2022

Current Participants

- Bankhaus Spängler AG
- **BAWAG PSK AG**
- Erste Group Bank AG
- **OeNB**
- Raiffeisen Centrobank AG
- Raiffeisenlandesbank Oberösterreich AG
- Raiffeisenlandesbank Steiermark AG
- **RBI AG**
- SDS GmbH
- UniCredit Bank Austria AG
- Volksbank Wien AG

Business Area and SWIFT Categories

- OTC Settlement (CAT5)
 - DvP
 - FoP
 - Reporting
- Asset Servicing (CAT5)
 - Dividend Payments, Coupon Payments, Redemptions and any other Cash proceeds
 - Corporate Actions
- Notary Services (CAT5)
 - Increase/Decrease Global Certificate
 - Disclosure Requests (SRDII)
 - Income Collection Paying Agent
- Payments (CAT2/CAT9)
 - B2B Transfer
 - Cash Account Reporting
